

FR12

Introduction

FR12, a fingerprint reader with RS485 communication interface works with biometric access controllers and fingerprint standalone access control, including inBIO series controllers and so on. It offers the function of capturing and transferring fingerprint samples to access control panel inside to match. With its IP65 rated rugged structure, FR12 offers extra durability in all weather conditions including outdoor environments.

Specification

CPU	324MHz
Sensor	small-sized sensor
Communication	RS485
Standard function	ID Card Module
Optional function	MF Card Module
Voice Prompt	Buzzer
Working Voltage	12VDC
Working Temperature	0°C~ 45°C
Size	50mm*102mm*37mm(W*H*D)
Protection Grade	IP65

Configuration
